Next step: Get connected!

You've created your profile, written your bio, and uploaded a great photo. Now it's time to make some friends!

Here's how to add contacts in the community:

1. Log in to the WSAE Connected Community.
2. Click on the menu tab for "My Profile."
3. Choose "Find a Member."
4. Search for a member using the search criteria.
5. Click on "Add [name] as contact." (Look below the individual's name in the list of search results.)
6. Click Send.

Repeat three times and watch your connections grow!
