

Supersize your WSAE membership

The WSAE Connected Community is an opportunity to expand your professional network and build on the relationships you've developed through attending meetings and events. It's all the benefits of WSAE – supersized!

If you're familiar with LinkedIn or other networking sites, you know this is the first step to participating in an online community. The information you share in your profile provides the common ground on which relationships begin.

I invite you to visit the site and follow the steps for creating your profile. If you created a profile during the test phase, you may want to revisit the site to make sure your profile is complete.

Go ahead and supersize!
